PRINCE ALBERT, FEB. 8, 1913.

OUR GRAND HERITAGE.

In another column will be found an excellent description of the Prince Albert district and the large and fertile country immediately adjacent to it. The article is full of information about this country, and is a true picture of this, our grand heritage. The district of Prince Albert contains in itself everything that is required to make a happy, contented and prosperous people. In the centre of the district is the town that bears the same princely name, beautifully situated on the south bank of the north branch of the great Saskatchewan river; and from its geographical situation it is destined to be a great railroad centre, and no doubt will also be a great manufacturing town, as it possesses unlimited water-power, and an abundant supply of wood. At present lumbering is carried on to a large extent, and in the near future other industries for the manufacture of flour, cotton, woolen goods and other articles will be started and successfully carried on, and with the opening up of the coal mines in the immediate vicinity of the town, Prince Albert will undoubtedly take a front rank as a manufacturing town. The educational interests of the town are keeping pace with its advancement. At present there is an efficient Public School system with a High School department at the head. St. Ann's Convent is also doing a good work, and Emmanuel College, under the supervision of the Church of England, is principally engaged in educating and preparing mission boys and teachers for the work of the diocese of Saskatchewan. The district surrounding Prince Albert town has only to be seen to be admired. It is a magnificent stretch of beautiful, undulating prairie particularly adapted to mixed farming; the land being of wonderful richness, with an abundant supply of wood, hay and water. The climate is clean, dry and healthy, and entirely free from wind storms, blizzards and cyclones which do such terrible damage in Dakota and other American States. Wild fruits, such as the high and low bush cranberry, raspberries, strawberries, blueberries and currants are found in abundance. Among the wild birds found in the district and which are greatly sought after in the proper season are ducks, geese, partridge and prairie chickens. Trout, white fish, pike, gold eyes, sturgeon and other fish are found in abundance in many of the lakes. The wheat grown in the Prince Albert district is of a superior grade, and this district can now boast of being able to produce the best wheat in the world, so that with the opening of the Hudson's Bay road, Prince Albert will be the first city of Western Canada, and the Prince Albert district with its tributary districts will furnish homes for thousands of people who will not only be happy and contented, but will also be among the most prosperous of Canada's true and loyal citizens.

FIRE PROTECTION.

All those who are interested in the welfare and prosperity of our town will agree with the recommendation of the Fire, Water and Light Committee, which appears in another column.

The time has come when the business men and others of the town should have some system of fire protection other than that of a tin bucket brigade. The Fire, Water and Light Committee seem to favor the purchase of a first class Chemical Engine, believing it would meet the present necessity of the town, and that it would be much less expensive to operate than the Fire Engine. Many of our business men carry large stocks, but owing to the high rates of insurance do not carry as much insurance upon their stocks and buildings as they should in justice to themselves, so that our town needs some fire protection other than we now have. The Chemical Engine is very highly spoken of by many, and is said to put out about 75% of the fires in the towns and cities where such Chemical Engines are in

The principal expense in the Fire Engine is in the operating of it. It would also be necessary to have a number of water tanks in different parts of the town, which would incur a very heavy expense. A first class engine would be required to be always on hand, so that the Fire Engine would always be in proper readiness for every emergency, and would thus impose upon the town a heavier burden than the ratepayers would be able to present to meet. We, therefore, think that the preference expressed by the Fire, Water and Light Committee for a chemical engine well founded.

Prince Albert, as far as has been very fortunate, as any fires that have taken place have been where the buildings were isolated, and consequently did not prove so disastrous as they otherwise would have had they been in close proximity to other buildings.

Had the fire which broke out in Conn. McLeod's store about two weeks ago, taken place after he had closed up for the night, all the business places in the immediate vicinity of his store would have gone up in order, as any store on the part of our fire brigade, with nothing but tin pails would have been utterly useless, notwithstanding the boys would have done all in their power to quench the flames. We are glad to see the present council take hold of this important matter, because the sooner some efficient system of fire protection is provided for the town the better.

MACDOWALL FOR GOVERNOR.

A great deal of talk is being indulged in in the Territories with regard to the succession of our present Lieut. Governor, whose term of office expires next July. A variety of candidates are being mooted by the different Territorial papers, each district having its own little man ready to be escorted to the Capital and placed in the gubernatorial chair just as soon as the powers at Ottawa shall be pleased to name which one it is to be. This is all very nice but what effect it is calculated to have upon the powers that have the appointment to make? A horse divided against itself is not calculated to stand very long, and a territory containing twenty-six districts, each with a candidate, is not likely to impress the Governor-General in Council with the desirability of appointing a Northwest, to the Lieut. Governor's office. If it is to be expected that the wishes of the people are to be considered by the Ottawa authorities, we must show united front, and agree upon one, or at most two men, and drop the rest. From the best information at our command, we are satisfied that Mr. Macdowall, of Prince Albert, of all the names mentioned in the Territories, he is the best qualified for the position. He has a thorough knowledge of North West affairs and its needs, and not only that, but he has been proved that he has the power of impressing upon the Government the needs of the country in such a way as to secure the attention and action of that body in behalf of those in whose interest he is working. And that is the kind of a man we require at the head of affairs in the Territories: a man who knows what is required for the proper advancement of the country, and who will stand by the people and urge their claims until he gains his point. We do not agree with the Leader that the principal virtue required in a Lieut. Governor is that he be a good entertainer; and Mr. Macdowall is not lacking in these qualities. We need a man who will allow no opportunity of forwarding the interests of the country to pass by without trying to make it. If the sole—or principal—duty of a Lieut. Governor is to entertain in a princely fashion, we would say let the office be abolished, and the leader of the Government or the House perform the other duties—ministerial or judicial—that are supposed to devolve upon the Lieut. Governor—*Qu'Appelle Vilette*.

counts are found many kinds of fish, including white fish and trout. Pioneers have done their share to make these fish known to the world, and capitalists of brain and energy looking for fields for safe investments are needed to build up industries and hasten the development of the various resources of Prince Albert, Saskatchewan. The certain knowledge that these and in all likelihood other equally valuable resources that are lying dormant, awaiting the vitalizing influence of capital and energy exist. That the rich lands of Saskatchewan tributary to Prince Albert will one day be tenanted with teeming thousands, producing bountifully of nature's stores, conveying a glimpse of future greatness. That this development will take place as a foregone conclusion, based upon knowledge of the alteration of similar existing conditions in other parts of America. In the country around Prince Albert, and for some distance east, west and south agricultural pursuits have attained a stage far beyond the experimental. Successful farmers and settlers here have carried on their operations for varying periods of five, ten and twenty years and there are men among them who will tell you that after a period of 15 years they have never had a complete failure of crops. Unfettered seasons there have been but these farmers whose business farming, and who understand their business, have so managed that failure of crops to them is unknown. There is much good land for FREE HOME-STEADING, in this district, and there is choice of a variety of lands such as timbered, prairie or bluff; the land is rich. There is rolling prairie dotted with pretty poplar bluffs, open plain country, with level swales extending many miles in all directions, and heavy timbered land, so that the new settler is not obliged in choosing his farm and future home to limit himself to any one kind of land. The great advantage of such a condition will be obvious at once. For instance, a new comer from the Province of Ontario who has probably spent a large part of his life time clearing a farm of timber and who very likely does not care if he never sees woods again, can with the Prince Albert district find plenty of

SECOND BATCH.

I have just received by last train another consignment of the celebrated

SPEIGHT BOB-SLEIGHS

With my first consignment I convinced the people that they were the best sleigh on the market and the demand was more than I anticipated. However, I have my second lot in and parties requiring an A-1 Bob-Sleigh it will be to their interest to call early.

I have a few cutters still on hand at prices that cannot fail to suit.

CAN YOU TELL A Sponge?

WHEN YOU SEE IT.

Probably you couldn't if you were to see one in the natural state. One would not recognize in the dark almost black substance full of mud, sand and shells the light yellow soft sponges of our shops. The network of elastic fibres which remains behind after the living matter has been removed is the skeleton of the animal which is the sponge of commerce. There is a great distance in sponges. If you are not a judge come into our store the next time you want something in our line and we will gladly post you. Every kind is represented. We feel we can satisfy you no matter what your needs may be.

Twelve days without a mail and every day looking to meet the next. All mail blankets for \$4.50 a pair, at F. C. Baker's.

Several more trains left last week for the West to get out logs for Sander's mill.

Pure Gold Turkish Coffee is the best coffee in the world.

Corn, Stewart is expected home on next train from the east, where he has been in the interests of immigration.

Stewart announces his special Discount on the 1st December.

During competition in the washing business and the numerous persons engaged therein, our townsmen, John Chalmers, leaves here on the next out going train.

For Gloves, Mitts and Moccasins go to Baker's.

The Mill of the Gold grind slowly. But tax collector M. L. A. does worse. He is getting Hungarian process in his outfit. Pay your taxes and avoid further unpleasantness, as the lawyers say. Perhaps not.

Because of imitation, take note that Pure Gold Lemon or Vanilla.

Indian Agent N. K. and his son drove from Duck Lake on the 21st. They found the road in a very bad state of repair, but they did not mind it as they had brought their own horses and were not in a hurry to get home.

If you want a good cup of Tea you want to call on F. W. Shea for the material to make it.

On dog days are beginning to show. Every day we are to see every dog in the city howling and baying and on a Sunday night might more hideous than any other. Can you imagine our own town? What is our town coming to?

Indian Jacket and Ulster at Stewart's.

Mr. Henderson, Presbyterian Missionary at Caledonia and Wabigoon, occupied the Presbyterian pulpit on Sunday last in the absence of the Rev. Mr. Rochester, who accompanied Mrs. Rochester as far as Regina on her trip to her home in the States.

Mr. R. G. Congdon's many friends will regret to hear that he has been confined to the house for the past two weeks, from a tumor, between the shoulder, which seems to have been the result of an accident a couple of years ago. The trouble was removed by Dr. Reid, and Mr. Congdon is now improving as rapidly as can be expected.

Go to Stewart's for gent's all wool Suits at \$1.25.

Mrs. Smythe—"What delicious Home Made bread you must tell me how to make it."

Miss Sedgwick—"I did not make it, it is the cook of Home Made Bread made at the New West Bakery."

Mrs. Smythe—"I don't like Baker's Bread, but I shall order some of this to make it."

Charles Smith, who has been closing up T. O. Davis' business at Duck Lake, returned to town on Tuesday evening. Charles worked at the way and didn't get any pay like the other fellow, John McTaggart of Winnipeg, son of our Crown Printer Agent, has been spending a few days at Duck Lake. He returned on foot in the wake of Charles.

Pure Gold Flavoring Extracts are the best.

For the benefit of some farmers residing here and to all those intending to reside here, we wish to state that burned cut do not alternate and if those who have not a new had in the summer put up shelter and cut a little more of the hay, it will be a very good thing for the future.

Mr. Smythe—"I don't like Baker's Bread, but I shall order some of this to make it."

G. W. Baker has the finest assortment of candy in town. See his 15 cent mixture.

Monseigneur Pascal leaves on the next train on only consultation for our defective train service is the fact that it keeps the Bishop amongst us. Since his arrival here his Lordship has made a host of friends not only in his own but in Protestant circles. He has built a magnificent church, almost by the way, and his efforts, and more that paid for it. We wish his Lordship "bon voyage" and a safe return.

Go to Stewart's for cheap groceries.

The big storm along the main line of the C. P. R. has caused a cessation of all traffic, and all the telegraph lines being down makes the place feel isolated. But we are happy in the knowledge that one section of the country is entirely free from blizzards and drifts and during all the storm which raged east, west and south of us, we enjoyed fine weather but very cold. Thermometer readings from the 1st to the 6th of this month being: 1st, 72; 2nd, 68; 3rd, 62; 4th, 58; 5th, 54; 6th, 50; 7th, 48; 8th, 46.

Pure Gold Goods are guaranteed in every respect.

A team belonging to our respected suburban resident, Mr. A. Rogers, ran away Wednesday. After depositing the halting suspension on Capt. Meyer's coach, they pursued their wild career and were very checked on arriving at the residence of Mr. de la Roche, where they were met by a number of their admirers. The team was then dropped in their mad career. After a little recuperation in English and French, our very own clerk persuaded them to return and meeting Mr. Rogers on the road handed over the team to their grateful owner.

\$5.00 - It's a fine Tweed Suit at T. O. Davis'.

On the 1st of February, I shall have received \$100 for the book and when I do, I shall be able to give it to you.

LORD KILCOURSE SPEAKS.

We desire to call attention to the Great Western Competition of 1893, which is now being conducted by the Canadian Agricultural and Home Journal, published at Peterborough, Canada. The Agriculturalist has gained a reputation in the past for fair dealing in connection with these competitions, and the future will be no exception of the rule. Those who care to compete can do so free of charge. All they have to do is to prepare a list of English words made from the letters in the two words, "Columbian Exposition." The rules are that no letter can be used oftener than it appears in the two words above named, or can be the names of persons or places named. Foreign words are also barred. The winning prizes are for \$2,500; 2nd \$1,000; 3rd \$500; 4th \$250; 5th \$100; besides piano, organ, gold watches, 5,000 elegant silver tea services, etc., making a total of over 10,000 splendid prizes. All who send in 100 correct words will receive a special prize. Take a few sheets of paper, prepare a list of words "made up from the letters in the two words above named, and enclose \$1 for six months' subscription to one of the choicest and best publications on the continent, and you will have a really first class magazine to read, and may secure \$2,500 in gold in the bargain. The Agriculturalist carries out its promises to the very letter, as the following from Lord Kilcourse, the Governor General's Secretary, will testify.

Government House,

Ottawa, Ont., Jan. 16th, 1893,

Sir,—It will give me great pleasure to recommend my friends to enter your competition. I am, Sir,

Your obedient servant,

"KILCOURSE, A.D.C."

To the Editor of Canadian Agriculturalist, Peterborough, Canada.

PRISONERS LIBERATED.

Many who have been confined to their beds for years by rheumatism, lame back and kidney complaints, have been liberated from their sad prisons by the wonderful regulating and purifying action of Burdock Blood Bitters which drives out the acid poison from the blood and restores health to the afflicted.
